
Theo Janeway

Los Angeles, CA | Ashland, OR

(541) 973-3294 | theo@theojaneway.com | theojaneway.com

Personal Summary

Third-year architecture student at the University of Southern California working at the intersection of design, fabrication, and computation. I build my own tools: parametric Grasshopper scripts, AI rendering workflows, and agentic systems in Claude Code that drive Rhino. Built work, client work, and full project documentation at theojaneway.com. Seeking a Summer 2027 architecture internship.

Education

Expected 05/2029

University of Southern California — Los Angeles, CA
Bachelor of Architecture · Minor in Real Estate Development · Dean's List

12/2023

NOLS — New Zealand
Expedition-based leadership program: teamwork, risk management, decisions in remote terrain

Skills

Design

Rhino 3D · Grasshopper · Ladybug / Honeybee · Revit · D5 Render · CAD drafting · Illustrator · Photoshop · InDesign · DaVinci Resolve

AI

Claude Code (agentic workflows, custom skills, MCP servers) · AI rendering & image editing

Fabrication

Laser cutting · 3D printing · Physical model making

Experience

07/2026

Arkitek Design & Architecture — Ashland, OR
Architecture Intern (returning)

- Built and presented “Grey Model to Final Render,” an AI-in-practice workshop teaching the firm a repeatable Rhino → D5 → AI rendering workflow

02/2023 – 06/2023

Arkitek Design & Architecture — Ashland, OR
Architecture Intern

- Modeled designs in CAD and fabricated physical presentation models with laser cutting
- Made presentation graphics (Illustrator, Photoshop, Procreate); joined design critiques under architect mentorship

02/2024 – 08/2024

Mountain Provisions — Ashland, OR
Store Layout & Display Designer

- First employee back after the store burned down; designed the new layout, built displays and fixture tables, ran sales and inventory

05/2024 – 07/2024

Camp Deboer — Klamath Falls, OR
Camp Counselor

- Led middle school students in wilderness shelter-building exercises; supervised groups and managed safety

Selected Projects

Architecture

- Haldane House** (2026, in progress) — Craftsman residence for a private client, Talent, OR; plans, Rhino model, permit set
- Helioform Station** — 9,500 sf weather station, Page, AZ (team of 3); brick facade pattern driven by Ladybug solar analysis
- Pike Courtyard** (2025, built) — courtyard system designed and built for a real client with professional collaborators

AI & Tools

- REDLINE** — Claude Code skill + browser markup tool that turns architectural renders into precise AI edit prompts
- Axon Voice** — local AI dictation app for Windows, built with Claude Code and shipped in three days
- theojaneway.com** — portfolio site designed from scratch and built with Claude Code; no template
